How to use

The cities of origin and destination have been listed alphabetically.

The flights against each destination city have been listed on the basis of their time of departure.

The flight details are given in the following order - days of operation, time of departure, time of arrival, number of stops and flight number

In case of more than one flight going to one particular city, the flights are listed according to the time of departure.

Example

To locate an evening flight from Delhi to Varanasi, first find Delhi and then locate the city of Varanasi which is positioned alphabetically.

Now read the second column to find the time of departure, choose your flight and then find out from column one on which days it leaves.

Subsequently, you locate the carrier and the arrival time with the number of stops in between.
